

Circle of Deception - Timelock

XYM 1004

Timelock: After a period of 8 years Timelock is back!

A few months after the release of "The Dawn" (1994) their record label SI Music went bankrupt and Timelock were forced to stop for a while.

Now after 8 years they have recorded a brilliant new album entitled "Circle of Deception".

With FAF (For Absent Friends) drummer Ed Wernke they recorded 10 complete new songs (including a 12 minute epic) at the Holland Spoor Studios in The Hague.

Transparant songs which can be characterized between progressive and melodic rock.
