

El bufó de la Cort - Dr. No

XYM 1005

After releasing three Dutch bands Xymphonia Records goes international with the release of the album "El bufó de la Cort" from Dr. No, a band from Catalonia.

On this debut album the Jester (El Bufó) tells their first story. Enric Pascual and his musical friend Conrad Dubé have composed a beautiful melodic symphonic rock album. The emotional sung Catalan lyrics give this album a unique atmosphere. In the mellow moments of the album bands like Camel and Eris Pluvia will cross your mind. And the Jester on the cover is not the only thing that will remind you of the early Marillion. This makes the album easy to consume and interesting for a broad audience.
